RAFFLES!

Freedom Paws Assistance Dogs (FPAD) has provided our family with a gift that is beyond money; it is peace of mind that our son Frankie, who has Type 1 Diabetes, is safe! FPAD blessed us with Stanley, Frankie's Diabetic Alert Dog. We can go to bed at night and not worry about Frankie's well-being; Stanley has that covered!. I cannot tell you what that means to our family- to know that our baby is safe while he sleeps. Stanley went through many months of training to smell the change in Frankie's blood sugar and alert both Frankie as well as my husband or I when a "high" or "low" occurs. Stanley sleeps near Frankie and can wake up and alert us if there is an issue that is not detected by other means. Stanley is a true service dog and certified as such so that he can go anywhere with Frankie. Stanley underwent extensive training to achieve his skill level, which comes with a substantial expense.

We have a week long event to raise funds to cover the cost of Stanley. All proceeds will go directly to FPAD. We've aligned 3 great partners that are willing to do a fundraiser for Frankie and Stanley and this non-profit organization!

Please join us for the Fundraiser Kick-off on Saturday, November 18th from 1-5 at 343 Kensington Drive, Oswego IL 60543.
